

Ogden City Corporation

Request for Bids

Computer Equipment / Technology Purchase

Q & A

1. *Would you accept a different model with equivalent specs?*
 - a. No, these are the models and specs that we are requesting. No substitution.

2. *Could you also ask about the touchscreen requirements? We spoke with Dell and neither of them have an option for a touchscreen. Can you please advise if we can quote without it?*
 - a. I received a response from Dell today that the 7740 will be going end of life so they will not be putting touchscreens in them. You are okay to bid without the touchscreen ONLY on those models, as we currently have them and want to keep that division uniform with what they are using.

3. *I am wondering if you are awarding all items to one vendor? Or, if you're awarding to multiple vendors.*
 - a. The bid states the City will award to only one vendor.
