

**Ogden City Corporation**

**Request for Bids**

**Remote Desktop & Application Servers**

**Q & A**

---

1. *Are you open to alternative solutions that would either provide more value or are more cost-effective?*
  - **We are looking only for the DELL items on the RFB Spec sheet. No substitutions.**
2. *Configure to Order servers have a lead time of 2-3 weeks per our sources at Dell and other distributors, which is the reasoning behind my first question. Being the deadline for Bid is December 10<sup>th</sup>, how long will the Awardee Selection process take? The delivery deadline is the 30<sup>th</sup> and cuts it pretty close for all parties.*
  - **If we are going to award the RFB, we will notify the vendor within a few days after the deadline. We understand the timeframe.**
3. *Are there any details that are more important than others? How can we help you be successful?*
  - **Nothing more than what is on the RFB.**
4. *I am reaching out to see if you are firm on the Power Edge Server or would consider alternatives?*
  - **We are looking only for the DELL items on the RFB Spec sheet. No substitutions.**
