

**Ogden City Corporation**

**Request for Bid**

**Ogden City Archway Sign – Colored LED Lighting Project**

**Q & A**

---

1. *Who will work with UDOT to shut Washington Blvd down?*
  - If there is any need for traffic control, the contractor will need to work with UDOT.
2. *Should they bid painting all boxes that hold the lettering?*
  - You could indicate something like “paint as needed” or “touch up where necessary”.
3. *What are the the lettering sizes?*
  - 10 – 48” metal letters that spell OGDEN
  - 89 – 14” metal letters that cover the rest of the wording
4. *Can you please send me lettering details and confirm - do you want to replace lighting only or do you want to replace lettering too.*

*Please send me the specifications of lettering like size, color, materials ...*

- We are asking they replace the lettering and cabinets that hold the lettering. There are 10 – 48” metal letters that spell OGDEN and 89 – 14” metal letters that cover the rest of the wording.
- We would like color changing options so that we can choose the colors we would like.
  - Example: At Christmas time, we can change them to green. During a Weber State game, we can change them to purple, etc.
- We would like the bidder to specify the material they will be recommending in completing this project.
