Addendum 2 – 2831 & 2839 Monroe Blvd – New Homes Construction Bid

The purpose of this addendum is to modify and or clarify parts of the original bid package. Please consider the following information when making bids on this project:

1. There is currently a power pole servicing the existing home to the North property. Ogden City has met with Rocky Mountain Power to discuss relocating the pole. For purposes of this bid, do not include any additional costs for relocation of the pole as part of this project.
2. All trees and bushes as well as existing stumps are to be completely removed from the sites.
3. Please include the replacement of all the existing curb and gutter, sidewalk and removal and replacement of drive approaches for both lots.

All other contents of the original bid package remain unchanged including bid submittal dates and timelines.
