**To all:**

Next Tuesday morning at 8:00 am local time, the Ogden Regional Airport (OGD) will be simulating an emergency situation involving a large aircraft with passengers. The Airport will be closing the taxilane, just west of CB Aviation and Borsight, to allow space for the emergency equipment. The taxilane should be reopened in the early afternoon. Ogden Police and Fire Departments, as well as several of the surrounding community's Fire & Police, will be participating. Weber County Dispatch is also aware and should be able

to calm anyone who might believe that there is an actual incident.

There will be a large amount of Fire Trucks, Ambulances, and even a Helicopter as the Airport practices the procedures laid out in the Airport Emergency Plan. This emergency exercise is required every third year by the FAA, under Federal Aviation Regulation (FAR) 139.325. The exercise was last done in October of 2018. We apologize in advance if this inconveniences anyone.

The Airport will NOT be closed during this exercise. OGD will operate as normal during the exercise.

During the rest of this week, the FAA FAR 139 Safety Inspector will be at OGD to also conduct our annual inspection.

Thanks for listening and supporting the Ogden Regional Airport.

bwg
