

# OGD UPDATES - CHANGES IN THE COLLECTION OF LANDING FEES

## **NEW THIRD-PARTY COMPANY TO BEGIN COLLECTING OGD AIRPORT LANDING**

### **FEES AUGUST 1, 2023**

Beginning August 1st, VECTOR AIRPORT SYSTEMS, will begin being responsible for collecting landing fees at OGD. **Keep in mind that OGD only charges airport that are over 12,500 pounds of FAA certified gross landing weight. In addition, OGD does not charge any aircraft that are officially based at OGD.**

Previously, OGD utilized the FBOs to collect the transient aircraft landing fees. It was assumed that this was easiest because it was believed that these larger aircraft were already doing business with the FBOs. However, we have noted that OGD has several air carriers that land to wait out weather problems at SLC. These aircraft do not seek out additional FBO services at OGD, so landing fees are not collected. Several additional large aircraft go to multiple different OGD businesses, other than our FBOs. VECTOR will pick up all of these exceptions and should increase OGD's landing fees by at least \$10,000 annually.

I know that most of the persons receiving this email do not get charged a landing fee, but I wanted the new company to be common knowledge, if the conversations with others bring it up.

As always, thanks for listening and please let me know if you have any questions or concerns,

bwg
